

Directions to “Name that Pulse” game:

Have each participant look at the 9 different pictures of pulses and guess the name of each pulse. This game is even better if you can get real pulses and put the 9 different pulses in its own container. Participants are provided with a blank sheet with numbers 1-9 to write their answers. Participants must be specific with regards to color and size. Answer sheet is provided. Feel free to use different pulses if you have different ones available in your community.
